Bond Amount: \$8,000

Permit fee: Delinquent

Purpose of Inspection: This was a routine annual inspection of the site.

Inspection Summary: Photos attached.

- 1) The permit fee for 2008 has not been paid.
- 7) The pit in the pictures will eventually need to be filled in.
- 9) No topsoil was stockpiled

Conclusions and Recommendations: The site had good regenerative growth with native plants in the area. Any revegetation should not be difficult to achieve. Concurrent reclamation is recommended for any disturbances that can be reclaimed (i.e. contouring, seeding, etc.). Operator needs to pay annual fees. Operator needs to stockpile topsoil for reclamation. DOGM will continue to monitor this site.
